

Rotary Actuators

Standard Family

M91xx-xxx-1N(1)

(Joventa DAS-DMS / DA-DM / DAL-DML / DAG-DMG)

8, 16, 24 and 32 Nm, Non Spring Return

The Standard electric actuators have been specially designed for use with small and medium-sized air dampers and for terminal control units in air volume control systems.

Thanks to their very small size and clever construction they are also ideal for applications where space is limited.

A key feature of the design is the special Johnson Controls spindle adapter which also incorporates angle-of-rotation limiting and position indication.

Features

- ON/OFF, Floating and Proportional Control
- Load independent running time
- Paralleling of up to 5 actuators possible
- Screw terminal connections
- Universal adapter for:
round spindles from 10 to 20 mm dia. or
Square spindles 10 ...16 mm with min. 48 mm ax length
- Choice of rotation
- Angle-of-rotation limiting
- Manual control by pushbutton
- 2 auxiliary switches
- Automatic end stops
- Power saving at end stops
- Customising available
- IP54

Dimensions in mm

Standard Family
